Red Rice's.

RED RICE'S—LOS ANGELES, WED-needay, Dec. 10. Reader, you may safely say that Red Rice's is always with you, for all that Red lice has a lot of money to raise this month, and must sell goods to jet the money; yes, and

must seil goods in great quantities. Nice furni-ture is crowding upon use ere ifasier than we can handle it. We take everything that cemes, and are glad to get it, but we propose. Furthermore, to be way in the lead in the matter of selling; in fact, we propose to make others take a very lively galt in order to keep in sight of Ried Rice's. You see, we are practically the only buyers of the big see, we are practically the only buyers of the big see, we are practically the only buyers of the big have to make so great advantages over-companies. The Senate bill introduced last sea son to establish a public farm in each county within the limits of the republic, was reported back adversely and

indefinitely postponed.

Mr. Plumb introduced a bill to reduce the amount of United States bonds required of national banks to replace their surrendered notes, and to provide for the free coinage of silver. Referred to the Committee on Finance. Referred to the Committee on Finance. He also offered an amendment (in the same terms) to the bill now on the calendar, so that the matter can be brought before the Senate indpendently of the report of the Finance Committee. In doing so he gave notice that if the Elections Bill is not disposed of at an early day he would move to lay it aside for the time being, in order that the bill just introduced by him and all other measures relating to the fine still condition of the country may be ensidered.

Mr. McPherso offered a resolution, which was agreed to, calling on the Secretary of the country of a certified copy of the country for a certified copy of the country for a certified copy of the country of John I. Davenport, Chie Supervisor of Elections for the Sou the District of New York, for elections of 1884, 1886, and 1888.

The Elections Bill was then that a up, and Mr. Berry spoke in opposition. As an illustration of the bad effects of such a law, he referred to the appointment by United States Circuit Judge Williams, in Arkansas, of John McClure as Chief Supervisor of Elections. Judge Williams, he said, lost the confidence of a large portion of the people of Arkansas on account of his imposing on them the very worst man in all Arkansas to exercise the high functions of that office. The same thing might occur in all other States. The supervisors holding their office for life, if the Circuit Court judges were Democrats (as they are now for the most part Republicans,) the bill would not be advocated on the other side of the chamber. It was, therefore, a partisan measure. Mr. Berry iore, a partisan measure. Mr. Berry savagely scored Supervisor McCure, and entered an earnest protest against the bill as a measure designed to legal-

Gov. Waterman Pardons Another Lot of Convicts Agricultural Commissioners Appointed -Coast News.

By Telegraph to The Times. SAN FRANCISCO, Dec. 9.—[By the Associated Press.] Collector T. G. Phelps was before the Congressional Committee on Immigration today, and furn'shed some statistics concerning the use of opium. He stated that between July, 1888, and November 1, 1890, there had been imported, in round numbers, 176,000 pounds of pared smoking opium, the duties on which approximated \$1,760,000, on which approximated \$1,760,000, In the same period 177,000 pounds of crude opium had been imported. The Collector expressed the opinion that haif as much opium is smuggled in as comes through the Custom House. Opium-smoking was becoming common in many parts of the country where it was formerly unknown, and was even being used by children. The witness said that he wished to make a angestsaid that he wished to make a sugges-tion that the importation of smoking opium be absolutely prohibited. The Collector also testified to the fraudu-

Two members of the police force testified to the finding of Chinamen imprisoned at the quarters of the Six Companies for failure to pay debt.

After hearing the testimony of several testimony of several testimony of several testimony of several testimony.

After hearing the testimony of several more witnesses, among them Dennis Kearney, the committee finally adjourned this evening.

The sub-committee on the Chiness question will leave tomorrow for Los Angeles and San Diego, where the investigation will be resumed. The committee consists of Senator Squire of Washington and Representatives Lehlbach of New Jersey and Stump of Maryland. Senator Squire has left the committee temporarily, and the investigations will be conducted by Stump and Lehlbach.

UNFORTUNATE CONVERTS.

Chinese Christians Massacred by Their Heathen Countrym n. San Francisco, Dec. 9.—[By the Associated Press.] The Shanghat Mercury publishes a letter from its

Obristians at Loong Tuy Tain by members of the Ko Loo Huy Society during a celebration in honor of the society's patron deity. After the celebration, which lasted several days, the brotherhood consulted their joss as to whether it would be safe to plunder the Christians. The reply being in the affirmative, the brotherhood made a raid on a number of well-to-do Christian families and carried off a lot

of booty.

A few days later they made a fresh attack and massacred over twenty persons. Nineteen bodies were counted in the streets and several were now under construction from the Atlantic port to the divide, are practically completed. Very satisfactory progress has been made on a breakwater to protect the Atlantic harbor from shifting sands. During the year the company purchased a dredging plant at Panama and the greater part of it has been transferred to Greytown. The very important work of dredging the harbor at San Juan del Norte has been energetically prosecuted.

BUBNING Q.L WORKS.

An Early Morning Blaze at San Fran-SAN FRANCISCO, Dec. 10.—[By the Associated Press. | A general alarm was sounded at about 1:50 this (Wednesday) morning for a tire in the oil factories near the railroad buildings at Fourth and Townsend streets. At 1:40 the fire was burning fiercely, and cleaning out the entire inside of the

During the evening speeches were made During the evening speeches were made by almost every one present, and papers were read by A. D. Childress and W. C. Bosbyshell. Mr. Bosbyshell's paper was on the "General Banking Interests of Los Angeles, Comparen with Omaha and Other More Eastern Cities."

Mr. Childress read the following:

MR. CHILDRESS' PAPER.
Looking backward over a period of five years, which constitute my stay and residence in this glorious climate and country, I am struck with astonishment in the contemplation and realization of its phenomenal growth and development, financial and otherwise.

templation and realization of its phenomenal growth and development, financial and otherwise.

From a town of 22,500 population in the summer of 85 as shown by a local census taken and suppressed by proud taxpayers, who boasted to the world of double that humber of souls, Los Angeles has grown to be the second city of California with over 10,000 people within her properly-defined independent of the control of the Los Angeles county, in same ratio of population, has decreased in taxable wealth from \$22,735,000 to \$67,121,600. In the past decade the population of the county has increased from \$23,000 to 101,450, and its taxable which from \$15,503,733 to \$67,121,500, while the increase in population is something to be proud of and marvel at. The kind and chiracter of people who have literally finested to Southern California prior, during and subsequent to the paimy days of the hitoric boom is still more surprising.

The immigration has not been of the usual pineer element, poor in mind and purse, of the westward march for the purpose of spedy accumulation of wealth or repairing bloken fortunes; neither has it been confined to the physically weak and impotent, with frames wasted by the ravaxes of some dread disease, but as a rule, and not the exception, an unusually intelligent and cultivated people with refined tastes and habits, whose actual presence competitivity and enterprise, and stimulate the mind to higher and nobler impuises and exertions. It might be safely said that no country was ever blest with such an intelligent immigration.

Notess wonderful than the great influx of people and wealth poured into our laps during the past five years has been the astonishing increase in number and wealth of our fin melai institutions.

In July, 1885, there were only four commercial banks in Los Angeles having a

tonising increase in number and wearsh of our fin netal institutions.

In July, 1885, there were only four commercial banks in Los Angeles having a total capital of \$500,000, with surplus of \$200,000.

total capital of \$500,000, with surplus of \$600,000.

The combined deposits of the four banks amounted to \$3,128,000, whereas in July of this year (1890) the number of commercial banks has increased to twelve with a combined capital of over \$3,000,000, a combined surplus of over \$1,300,000 and the enormous sum of \$8,141,000 deposits.

Besides the twelve commercial banks there are at present twe prosperious savings there are at present twe prosperious of only \$48,000, and deposits of only \$48,000, with the past five years to be \$3,500,000, with the corresponding increase of deposits of over \$3,300,000.

This great increase in the number and wealth of banking institutions, together with the large accumulation of deposits, true indices of growth and development, would puzzle the stranger to believe such a thing as a "bursted boom."

Such is the present status of the banks of the savingers at the present status of the banks of the savingers are the present status of the banks of the savingers are the present status of the banks of the savingers are the present status of the banks of the savingers are the present status of the banks of the savingers are the present status of the banks of the savingers are the savingers ar

sting as a "bursted boom."

Such is the present status of the banks of Los Angolee after having passed through the most trying tests of business depression resulting from an era of u precedented and unpar-lieled prosperity that financial institutions have rarely ever been subjected to without bankruptey or failure.

And in this connection it would be proper to state that our burdens were made more grievous to bear by the prevaiing custom and seeming indifference of bank customers to provide for the prompt payment of their

and seeming indifference of bank customers to province for the prompt payment of their paper at maturity, besides the general powerty of the people induced by overtrading in property of speculative value, and the consequent absolute dearth of income from such properties when they ceased to be mar-

The bank customers of Los Angeles will probably never realize the unusual leniency shown them by their bankers during a very trying ordeal which summoned all the courage of their souls together with the financial strength to endure, Yet thanks to the wonderful recuperative

powers of our people, which are truly markable, that period of trial, endurar and settlement almost belongs to the past. The day ight is breaking fast and the roseate nue of a glorious morn pres ges a more brilliant era, steadler and brighter

more brilliant era, steadler and brighter than we have yet looked upon.

The bountiful fruit crops which have yielded rich and unprecedented return, together with the increased demand at high prices for all the products of the soil—and the McKiniey Bill (2)— have inspired and restored confidence, and indicate a speedy return to unusual prosperity.

As the country grows and develops so will our banks thrive and prosper. It is a failacy indulged in only by the ignorant that banks are the only institutions which flourish and prosper during times of degression.

banks are the only institutions which flour-ish and prosper during times of depression and business starnation. As a matter of fact, when banks' customers fiturish they flourish; when customers fail they grow sick. When financial death comes to the one life's titul dream is over with the other. So with the return of prosperity to our glorious country, the bank presidents and cashiers will fairly revel in delight, and on their manny and intelligent brows joy will sit supreme where sorrow and trouble erst-while reigned.

while reigned.

My humble prediction is that the continued growth and prosperity of Southern California cannot be estimated by the most

wind imagination.

What country in the whole universe offers such a climate to the healthy or sick, the

with such prodigious returns that the mere telling without elaboration reads like a

fairy tale?
In contemplation of the advance and growth of our country, blest above all lands with its soft and genial climate the year round; its soil a rich and generous one, yielding fruits and products its great abundance, we can but anticipate with pleasure the future prosperity of our banking institutions.

the future prosperity of our banking institutions.

Does it not behoove us, therefore, that while the sprit of harmony prevails, fostered and encouraged by our monthly meetings and "love feasts," as it is, that we should formulate and adopt rules for mutual good government, which would result in making banking both more pleasant and profitable.

Nowhere in the world is it so necessary for banks to co operate and dwell in harmony than in Southern California.

With some peculiar disadvant ges we labor under, chief among which is the very bad education our people have received relative to bank paper, or rather their utter indifference as to its prompt payment, and the utter lack of local securities upon which to base call loans, both of which causes require us to keep larger reserves than we otherwise would consistent with safety.

We should all adopt rules requiring customers to meet their paper promptly at maturity, on penalty of being denied future accommodations.

This rule ligidly enforced would enable

A great growing evil which should be suppressed is the enormous amount of gratuitous work done by us for our cus-

A great growing evil which should be suppressed is the enormous amount of gratuitous work done by us for our customers.

A uniform rate of exchange should be adopted by the banks and strictly adhered to. It something is not done to check the bidding by banks for business we shall soon be offering "chromoss" for secounts in addition to all our gratuitous work.

I would suggest that our Clearing-house Association take the initiative in the organization of a State bankers' association.

A resolution instructing the Clearing-house Committee to issue an address caling upon the bankers of California to meet and form the California Bankers' Association would reflect credit upon us as the organizers and do us honor.

The necessity of a State association for the purpose of bringing financiers together for discussions of questions of vital importance to their own success and the State's advancement and prosperity is clearly shown by such enactments upon the statute books as the Mortgage Tax Law, et al.

The recent disturbance in financial circles shows the absolute necessity of cooperation among all bankers, not only local, but State and national.

Twice in the United States within the last ten years have we seen "Blick Fridays" and wide-spread disaster averted by prompt action and cooperation of New York banks in the issuance of clearing-house certificates. Very recently the mighty Bink of England and the Kothschilds with others were not slow in joining hands to save from financial rain what was hitherto conceived to be the aimost impregnable house of the Barings. Their cooperation and prompt action was the means of preventing a financial panic which would business world.

In this connection allow me to advance this argument:

The fact that the removal of 25,000,000 of gold by Russia from the Barings should make them fall and cause the barks of England, Ireland, France; and Germany to be called to the rescue to meet \$15,000,000 acceptances payable in gold, shows conclusively that the single standard gold policy of Engla

THE EFFECTS OF THE COMBINE

Accident to a Brakeman at Colton-False Alarm About a Trainmen's Strike.

President Huntington, of the Southern Pacific Company, has just confirmed reports published in The Times several days ago to the effect that all work in the way of building on this coast by both the Southern Pacific and the Santa Fé has been stopped indefinitely. He does state positively that the general combination has been entered into, but from what he says there is no doubt about it, and for five years the chances are that there will be but little building on this coast; but the companies that have entered into this combination will find sooner or later that it is aboutely necessary to do a little more building in the way of extending their roads and running out branch lines. The people need a new line to San Francisco and say they will have it. Mr. Huntington admits that the Union Pacific will do some building up North, but it should not be forgotten that the people in this section of the country are sadly in need of at least two new lines, and he and Mr. Gould will probably attend to the matter when it is brought to their attention.

DON'T WANT MORE PAY.

It was reported a few days ago that the

trainmen were about to strike for higher wages once more.

Ouly a couple of months ago they demanded higher pay and got it, and the railroad managers did not known what to think of the last rumor. A special from Kansas City denies that there is any truth in the report, and says: "It was reported today that the conductors on the Birmingham Division of the Kunsas City, Fort Scott & Memphis had organized for the purpose of demanding an increase of wages. The Memphis officials here who were seen by a representative of the press said this after-The M-mphis officials here who were seen by a representative of the press said this aftermoon they had heard nothing of the reported action of their men. They say that the men's wages were raised voluntarily in October. The wages paid by the other roads were ascertained and the advance on the Memphis was such as to give the Memphis trainmen wages a little higher than are paid by other lines. A telegram was sent Supt. Sullivan of the Birmingham division this afternoon, inquiring if there was any trouble, but no answer has yet been received.

LOUDER DISCHARGED.

There Was No intent to Violate the Election Laws.

W. F. Londer, the young man arrested in the Seventh Ward on election day, by Officer Bevan, on a charge of lilegal voting, was yesterday discharged by Justice Owens. The evidence showed that young Louder had only moved into the precinct a few days before election, and went to the polling place in the ward where he formerly resided to cast his vote. The judges were personally acquainted with Louder, and when he tool them that he had moved, they advised

from three to five days. He was told that he could not vote, and waked away from the poils, and was shortly after arrested by Officer Bevan.

After hearing the testimony, Justice Owens promptly discharged the defendant, remarking as he did so, that if a man were convicted under the avidence submitted, it would be dangerous for any man to attempt to exercise the franchise.

FRUIT-GROWING CALIFORNIA. Letters come to us frequently containing inquiries in regard to fruitlands in this section. Land here, suitable for ruit-growing, is regarded as a rich bonanza by people upon the Atlantic borders. And they are right.
A good fruit orchard in Southern California is better than mines of silver or gold. The returns are made with less cost and less labor. The man who

his wealth is growing while he sleeps.
The market for our fruits is constantly enlarging. There are thousands of people in the Eastern States who have never been able to indulge on in the luxury of the orange as a table fruit. But as our orange orchards are multiplied and our harvests increase, larger shipments will be made, oranges will be somewhat cheaper and yet sell at a sufficient price to amply remunerate the grower. Lower prices and quick sales will prove advantageous to all concerned. There is no danger that orange-growing will be overdone for many years, at least in

Let our orange-growers give their select only the best of their fruit for smpment. With proper care Southern her oranges that cannot be excelled by any other orange-growing region. have all the climatic wealth, all the essentials of proper soil that are needed to perfect the fruit, and with intelligent action on the part of our horticulturists, we can, without fear, challenge the world to supply its markets with better oranges than can be grown

Orange marmalade and orange wine will always stances, whatever his crime. have a good marketable value, and are just as good if made from third or from the best. There is no better become one of the most popular of Cal-

Our horticulturists are learning to irrigate their orange orchards somewhat less than formerly, and this tends have been thrown out by the cour to improve the flavor of the fruit. Too and the jury warned against its posmuch water produces insipidness, though it may increase the size.

It has been asserted that peaches of as fine flavor as the Delaware peaches cannot be grown in California. But this is a mistake. Peaches grown in favorable localities in proper soil, and raised without irrigation, have ill the bloom and flavor of the best Eastern peaches. So it is with other deciduous fruits; there is nothing lacking in climate or soil to mature the best. The only thing essential is to select soil adapted to the fruit which you desire to cultivate. The prune is becoming a prominent factor among profitable one. The prune tree is a heavy bearer, and the fruit in its fresh state is one of the most delicious that we have. Certain varieties that we grow are equal when dried to the best imported French prune. It is, moreover, one of our most wholeome fruits and can be eaten freely with benefit.

It will be well for us when larger areas are planted to the olive tree, which begins to fruit about the fourth year. Pure olive oil will never be a drug upon the market, and better than all the imported olives is the small olack olive of California.

The fig tree, too, should be multiolied, and it does well with us, bearng its two yearly harvests of delicious fruit. It will be a good thing for the prosperity of this section when every nan can literally sit under his own vine and fig tree.

And the time is coming when this shall be. When every home, if it has not its orchard, has at least a few trees from whence the little ones may pluck the ripe fruit. Every owner of a city lot should plant trees enough to supply the needs of his own table. this were done, what a land for beauty and plenty should we have, and what a forest city would Los Angeles be. It would be like a garden.

If we look at Redlands it shows what a few years of wisely-directed effort accomplish in semi-tropical of country. California. That section has become within a few years a place of orchards and vineyards. So may all parts of this favored land become. There are hundreds of thousands of acres that are but waiting for the touch of labor to become fruitful and rich in abundant harvests. Let the laborer come!

THE committee on behalf of the Sunday closing of saloons, of which J. M. C. Marble was president and Mr. James was secretary, has issued a congratulatory address reciting the work done by the association in the late city campaign, and imferentially claiming the credit of all that was achieved.

The movement in this behalf, however, extended far beyond the limits of any organization, and the cause could not have triumphed had it not been for the firm stand taken and zealous and voluntary service rendered by the average citizen, acting upon his own convictions, and moved, not by coercion or fantical appeals, but by a deep sense of principle and a firm be lief that the measure in question was right, just-and expedient. Sunday closing was by no means carried by the

churches alone. DURING the recent municipal campaign it was charged that Mr. Hutchnson, the Street Superintendent-elect, had passed sections of sewer which were very defective. This charge was attributed largely to partisan spite, but now comes the Superintendent of Streets, and, in his annual report, Streets, and, in his annual report, makes the grave charge that the joints of the new sewer pipes are poorly men as Christians. Bad as the saloous made, and for a considerable distance. Are they are not so bad as modern are already open and the pipe cracked and broken. It is also claimed by others that there has been very defective work in the brick sewer on Grand tive work in the brick sewer on Grand ern temple to cry: "Woe unto you avenue. should be investigated. The city has and we want to know that the money is well expended. Defective sewers are worse than no sewers at all.

SECRET SOCIETIES AND COURTS OF JUSTICE.

During the trial of a case in one of the Los Angeles courts, on Monday, an incident occurred which is worthy of notice, as it is indicative of a sinishas an orchard planted can feel that ter influence which too frequently prevents justice being done in our courts The case is a damage suit, in which a young lady claims \$50,000 alleged seduction. During the trial Monday the plaintiff was asked by her attorney whether her father was a Mason. Before the defense could interpose an objection she quickly produced from her dress her father's certificate of Masonry. which she displayed to the jury. The defendant's attorneys objected, but of course were too late to prevent the effect of the "exhibit" on the jury.

It is apparent that the question as to whether the father of the plaintiff belonged, or did not belong, to a certain secret society had "nothing to do with attention to the choicest varieties, and the case," any more than would the nationality of the defendant, or the religion of the plaintiff's grandmother, California can make a reputation for yet it is a well-known fact that this secret society business enters largely into the question of jury trials. The skilled practitioner, who has a client to defend before a jury, will always ascertain whether the accused is a member of any secret organization. An effort is then made to secure one or more jurymen who are members of the order, after which care is taken that the accused prominently displays a badge of the order on his person, where the jury can see it. There are lawyers who they can be taken care of at home boast that they can always save a man from conviction under such circum-

> THE cold winter does not seem to stay the march of the deadly cyclone in the east, as the inhabitants of At lanta, Ga., can attest. This terrible visitant is making itself at home at all times and seasons upon the opposite side of the continent. We of California cannot be too thankful for our exemption from such ills. Climate is worth a good deal by the square acre when with it comes freedom from all such danger.

SEVERAL more failures of considerale importance are reported from the East this morning. It is nosaible that some firm, which are more or less in-volved are taking advantage of the present situation to rub out their indebtedness and begin over again. It is pleasing to note how little the business world of the Pacific Coast has been affected by the Eastern monetary troubles.

BOSTON, Dec. 9.—|By the Associated Press. | The annual report of the Atchison, Topeka and Santa Fé for the year ending June 30, 1890, is made to include the six months from January to June, 1889, intervening between the close of the former fiscal year. The report gives in detail the record of amalgamations during the year, and says that the result to the company has proved satisfactory in every respect, and the completion of plans now in progress looking to same end will demonstrate will demonstrate the wisdom of the policy outlined. The large expenditures are explained on the ground of bringing up the road-beds and tracks of acquired lines to a proper standard, etc.

lines to a proper standard, etc. Since August, 1889, traffic on all the lines has been heavy, and it has been found necessary to make provision for a large amount of additional equipment. Referring to the statistics illustrating the sources of revenue during the fiscal year, the report says that satisfactory returns are shown, notably from freight traffic, from which the best results were obtained and the figures. results were obtained, and the figures crease of revenue from passenger traffic (\$589,960) and express (\$113,598) arose wholly from the reaction in the Southern California boom which was felt most during the fiscal year, the California division alone showing \$272,606 and the Atlantic & Pacific road \$232,395, less passenger earnings and \$5,650 and \$20,622 respectively, less express earnings, than for the previous

A different result should be had during the current fiscal year, as the speculative features incident to the settlement of a new section of country have disappeared, and a solid basis for continued growth in the future in Southern California reached, which is already attested by an increase in passenger revenues since May, 1890, on the divisious of the property directly

The latest horror in that direction is the recent massacre in China, when more than twenty Christians were killed by the fanatical heathen, their bodies burned or thrown into the angry flood. GUTHRIE (I. T.,) Dec. 9.—[By the Associated Press.] H. D. McKee, a courier, who arrived here yesterday from Frisco, a small town on the border, states that there are 4000 Indians in different sections west of his place engaged in ghost dances, and that they are trading off their ponies, blankets and trinkets for guns and ammunition. are trading off their ponies, blankets and trinkets for guns and ammunition. Never before during the recent craze has the aspect in the Indian Territory looked so serious. Arrangements are being made to give the border towns every assistance possible, and the Oklahoma settlers are fully aroused.

THE COMING OF "SHIN-OB."

OURAY INDIAN AGENCY (Green)

About the exhibition this year there are a great many distinctive features that have never before been seen on the Pacific Siope, in fact, west of the Mississippi River in the line of poulity.

Nobly are some Cornish Indian games, which have never before been exhibited at a poulty show west of St. Louis. These fowls came from England direct, and have only been in the country for one month. It has been only three years since this variety has been bred in the United States. They are a table fowl and are the heaviest for this use

Sheriff secreted him. Great excitement is prevailing, the Indians declaring that they only want justice, but if any attempt is made to get Franklin out of town there will be trouble. The entire population is attending to business with six-shooters strapped around their wasts, and a number are carrying Winchesters to be prepared for emergencies.

Sacramento's Business Outlook. Sacramento, Dec. 9.—In his annua report to the City Board of Trade to day, P. E. Platt showed that deciduous fruit shipments from Sacramento this year equaled the total shipments from all parts of the State last year. All of this fruit was not grown in this vicinity, but the statement shows a great increase in the fruit industry. As a point, shipment for through Eastern freight of all kinds Sacramento stands second, San Francisco being the first. Mr. Platt's review shows a prosperous condition of business in this city.

OPENING OF THE FAIR

At the Universalist Church-How the Attendants Will Dress
-Notes and Com-

The Ladies' League of the Universalist Church were hard at work yesterday preparing for the opening of their fair, which takes place today at 2 o'clock, Booths were being erected around the walls of the spacious lec-ture-room and parlors, and the work of decorating them in colors appropriate to the nations represented was going

Directly opposite the entrance is the candy booth, presided over by ladies in Japanese attire. Americans have been selected to dispose of babies' wearing apparel, which occupies the next booth; beyond this dark-eyed Spanish beauties will pin flowers on your coat— and make you pay for them; fancy articles will be sold by kussian peas-ants, and the cup which cheers but not inebriates will be filled from a genu-

inebriates will be filled from a genuine Russian samovar; characters from Mother Goose will have charge of the "Busy Bee" booth; Italian fruit venders come next as one moves around the rooms, and next to them is the German booth; boys appropriately dressed will dispense popcorn and peanuts, while a little farther on ice-cream will be the feature.

The ladies have arranged a fine musical programme for each evening, and several of our elocutionists have volunteered their services. Supper will be served each evening from 6 to 8 o'clock. That tonight is to be an old-fastioned New England repast, with baked beans, brown bread, corned beef and cabbage, etc. One of the features of the fair will be an orange tree of a truly remarkable character. The peculiarity consists in the fact that each orange contains a prize which is good to be interested as a cashiers, relieving the monds. Messrs, H. H. Rose and C. C. Brown acted as cashiers, relieving the hungry of their money to the lively music of an orchestra stationed at one end of the room. Quite a large sum was netted for the organ fund.

STAR ENTERTAINMENTS.

The Next Attraction in the Lecture Course.

The second entertainment of the Star Course, under the management of G. A. Courvoisier of Los Angeles, will take place on Friday evening at the wellow the provided immense audiences at every prominent place on the Pacific Coast that they have visited

take immediate action on the petition of property-owners and residents which was presented some time since. With the weather we are now having it would be only a short time until we could have a business street worthy of our beautiful city. The suggestion that some of the pavements laid in Los Angeles be examined before final action is taken is a good one, but the Council should see that it is done during the present week, so that the matter may be definitely settled at the regular meeting on Saturday.

The Herald stated yesterday on the editorial page that the action of our Council in abolishing the salary of the City Recorder saved the city 87 per month; that the fee of the Recorder was \$3 and the average number of cases per month six, indicating that while the salary which was formerly \$25 was now done away with, yet the fees amounted to within \$7 per month of the former salary. Such is not the the amounted to within \$7 per month of the former salary. Such is not the the case. The emoluments of the recordership were, uptil the late action was taken by Council, \$25 per month and fees. Since the ordinance passed Council, making the salary of the Recorder dependent upon the fees alone, it is evident that the city will save \$25 per month instead of \$7.

If the ordinance prohibiting teams from standing on Colorado street went into effect immediately upon passage, as we believe was the case, why does not the Council see that the proper steps are taken to insure compliance with the provisions of the ordinance?

A number of teams were observed yesterday along the streat standing them. yesterday along the street standing hitched, some of them for hours.

"A GROWL."

Mr. EDITOR: Although my taxes are small yet they are as burdensome to me as if I paid much more. And as a tax-payer, I feel that have a right to criticise those extravagance that are factors in the creation of high taxes. I have in my mind the county hospital. No sooner does the impecunious citizen become broken down and debilitated, than he rushes off to the hospital. Even persistent dyspepsia and constipation are getting to be excuses for admission. Hence, allow me space to enter my feeble protest against further continuance of this pernicious practice. It costs the county many hard dollars for the treatment of every one of these unfortunates, and it is high time that they that are factors in the creation of high taxes. these unfortunates, and it is high time that the should know that they can save the county tha expense, and themselves those distressing ail-ments, by the judicious use of a few bottles of Joy's Vegetable Sarsaparilla,—a remedy that within my observation is a sovereign cure for those too common disorders. If they won't take those too common disorders. It they won't have it they ought to be compelled to by some law that would meet the case. Under the circum-stances a full hospital is inexcusable,—hence

PRIME MERCANTILE PAPER—734(210.

STERLING EXCHANGE—Steady, active; Oo-day oilig. 4.73; demmad. 4.82½.

New York, Dec. 9.—The stock market was quite different today from that of yesterday, and in place of weakness a decidedly strong feeling existed throughout the entire day, except for a short time in the forencon. The market closed active and strong at the highest prices of the day. Union Pacific is up 4½, Northwestern and Sugar 3½, Rock Island and Missouri Pacific 3½, Sliver buillion 3½, St. Paul 2½, Atchison 3½, Burlington 2½, and others smaller amounts. All of the active stocks opened materially higher, but liberal realizations caused a recession. Northern Pacific preferred lost ½. The market then became dull, but remained firm. At 11 o'clock prices were only slight fractions below the opening. Comparative duliness marked dealings in the stock market after 11 o'clock, but the strength disappeared, and everything dealt in shaded off somewhat, while in Western Union the decline carried it to 72 ag inst 74½ at the opening. At noon the market was quiet to dull and steady to firm at fractional declines from opening figures. Stocks grew stronger and higher after 2 o'clock p. m., Union Pacific leading with an advance of over 2. The market closed active and strong at the highest prices of the day.

Government bonds were steady and firm, NEW York STOCKS AND BONDS.

an earnest taiker, and forcibly impressed his hearers. He spoke more particularly of the power for good that young men could exert among young men, and urged upon those present the necessity of setting an example to others by their own life. Mr. Riddle was followed by Prof. C. M. Parker, who gave a résumé of the work of the association from its organization. The meeting was well attended by the members, and the interest shown speaks well for the association.

# THE PEOPLE'S STORE.

Everybody Scrambles for Our Bargains in Books.

EXTRA CLERKS ARE NECESSARY

Our Stock is Rapidly Melting Away Under the Present Unprecedented Demand - Heed Our Timely Warning.

PEOPLE'S STORE.

Wednesday, Dec. 10, 1890.

"Once more into the breach, kind friends."
Once more before 'tis too late. Heed our timely warning!! At the prices we are now naming for Books and other Holiday Goods they cannot last long—huge as our stock is. Immense piles of things with which we grow dealers. which we crowded our counters at opening time, dwindled down to the counter top ere we closed our doors. Things of which we imagined we had a superabundance are al-ready giving out under the great demand for them. Everybody is scrambling for them. Small dealers from the city and the interior, Sunday School committees and Church committees; people interested in fairs, country school teachers, and, in fact, all who are smirt enough to learn where

all who are smirt enough to learn where their money holds out the longest are rushing us hard. More extra people will be engaged for today and we will promise prompt and efficient service.

Look at the prices we are naming for Holiday things, and you will see the reason. Come before it is too late. It you put it off the very things you want will surely be gone. You can always depend upon getting the lowest prices at our counters. If you can't come around during the day, come after supper, we hold open house until Carlatmas. come after supper, we hold open ho
